Hiring Manager

Bending Spoons

Milan, Italy

Dear Hiring Manager,

I am writing to express my strong interest in the Engineer Intern position at Bending Spoons. As a passionate software developer currently pursuing my Master's in Computer Applications at NIT Agartala, I am excited about the opportunity to contribute to Bending Spoons' mission of creating value and driving growth through cutting-edge technology.

Bending Spoons' commitment to excellence, innovation, and fostering a growth-centric environment deeply resonates with me. My technical foundation includes expertise in full-stack web development, particularly in the MERN stack, and I have practical experience working with backend technologies such as Node.js, Express, and C++. Additionally, my recent internship experience at CloudPlay Solutions as a full-stack developer allowed me to work on complex projects, collaborate with talented teams, and consistently enhance my problem-solving skills.

I am particularly drawn to the opportunity to work closely with Bending Spoons' team of talented engineers, expanding your libraries and processes while gaining exposure to Python, TypeScript, Java, and mobile technologies such as Kotlin and Swift. My ambition, drive for continuous improvement, and strong sense of responsibility align with the qualities you seek in a candidate. I am eager to contribute to your innovative projects while simultaneously advancing my skills in a fast-paced, highly collaborative environment.

I am confident that my technical expertise, problem-solving abilities, and dedication would make me a valuable asset to your team. I am prepared to commit to the 12-month internship and can work at least 20 hours per week, with a preference for full-time involvement.

Thank you for considering my application. I would be thrilled to discuss how my background and skills can contribute to Bending Spoons' continued success. I look forward to the opportunity to interview and explore the potential of working together.

Sincerely,

Ritik Kumar
